Placement Example 1 × 1,25 m GALA FLAVOUR

Research shows that 90% of candles are bought on impulse, this is why product presentation is of premium importance. Shelves should be clearly structured and inviting to positively influence consumers. The psychology of purchase decision making should influence product placement on the shelves to optimize

the attention of each customer in the short time they are in front of the display. We can help, create different shelf modules to best serve your customers, do please contact us if you would like us to work with you to design specific modular displays.
